Amirbek Akramov

SOFTWARE DEVELOPER

Profile

Highly skilled and motivated Full Stack Developer with +5 years of hands-on experience in developing modern, dynamic web applications in PHP, Laravel, and Wordpress. Proven ability to lead teams to successful project completion through effective communication, problem-solving, and collaboration. Seeking a challenging role where I can leverage my expertise and leadership skills to drive innovation, optimize performance, and deliver exceptional results for the organization.

Employment History

Software Developer, Gurtam, Moscow

FEBRUARY 2013 — APRIL 2017

I am a seasoned Software Developer with a distinguished four-year tenure at Gurtam, during which I honed my expertise in a variety of technical domains. My skill set encompasses a diverse range of technologies including PHP, HTML, CSS, JavaScript, and Linux. Throughout my tenure, I consistently demonstrated a deep understanding of software development principles and a keen ability to translate complex technical requirements into efficient and elegant solutions.

Software Developer, MYITEDU,LLC, New York City

JANUARY 2022

I am a dedicated Software Developer with a demonstrated track record of excellence at MYITEDU, LLC. With a strong foundation in a wide array of technologies, including PHP, HTML, CSS, JavaScript, MySQL, Bootstrap, jQuery, GitHub, and Linux, I have consistently delivered high-quality software solutions that meet both technical and business objectives.

Education

Associate, Bukhara State Law College, Bukhara

SEPTEMBER 2009 — JUNE 2012

Legal Research and Analysis: Proficient in conducting in-depth legal research using various resources to analyze statutes, regulations, case law, and legal precedents. Skilled at identifying relevant legal principles and applying them to complex legal issues.

Bachelor, Bukhara State University, Bukhara

SEPTEMBER 2012 — AUGUST 2016

Computer software engineering: The art of crafting digital solutions that power our modern world. Engineers design, develop, and optimize software, translating ideas into functional code. It's a dynamic field where creativity meets technology, driving innovation and shaping the digital landscape we interact with daily.

Associate, ASA College, Brooklyn

MARCH 2018 — AUGUST 2019

Computer software engineering: The realm where creativity meets code. Engineers conceptualize, build, and refine software solutions that drive efficiency and innovation. It's a world of problem-solving, constant learning, and turning ideas into digital reality, shaping the way we work, communicate, and experience life.
